- Innovation and Technological Advancements
- Aesthetic Appeal

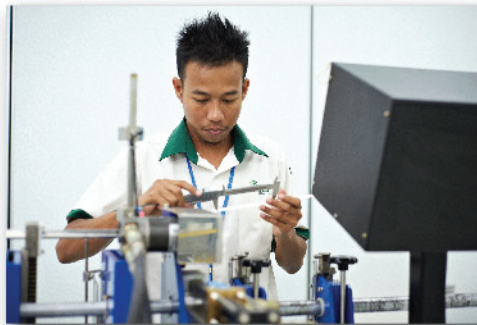

We are committed to providing and advocating for building materials that encompass these vital aspects of safety and sustainability.

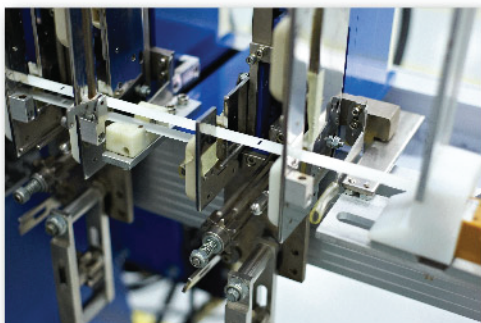

A Dedicated Research and Development Centre

Personal Testing and Evaluation by Our Company

Equipped with the Latest Manufacturing Facilities

Introduction

From the inside or out, enclosed blinds bring a sense of style, flair and privacy to your door windows and sidelights. Protected by tempered safety glass, DES enclosed blinds are a practical, low maintenance solution for controlling light and privacy at your entry door. There is no dangling cords and won't swing when you open and close your door, making it safe for your children and pets. Besides, cleaning the blinds is a breeze as a few swipes on the glass will remove the fine surface dust. The enclosed blinds eliminate the need for frequent cleaning due to dust accumulation on the slats.

Looking for a clean, and simple solution for your entry door windows? Discover more about DES enclosed blinds uniqueness and benefits.

DES enclosed blinds are mainly used in Office, Building, Private Property Estate, Government Constructed Building. Suitable to install on window, door and wall glass panel. We are the only company and the pioneer of enclosed blinds locally, size can be customised as per customer requirements.

ENCLOSED BLIND & HONEYCOMB SHADE COLOUR SELECTION

Enhanced Light and Privacy Control :

Our Enclosed Blind provide you with complete control over both light and privacy. With an easy - to - use operator, you can adjust them to your desired level, from total privacy and security to a wide-open view of the outdoors. Our unique full privacy channels ensure there are no light gaps, shadows, or annoying sunlight glare.

Minimal Maintenance

The innovation of enclosing the blinds between two glass panels means you'll never need to worry about dust or allergents. Unlike traditional exposed blinds that can become bent or tangled over time, our Enclosed Blind maintain their pristine appearance even with frequent use. To ensure long-term performance, Des Enclosed Blind come with a 10- year warranty covering the blinds, glass seal, and operator, making them an ideal choice for your exterior doors.
